

Forquilhas | Horquillas | Spades

Material: Cobre eletrolítico, estanhado eletroliticamente.

- Alta condutividade.
- Isolamento de PVC rígido com retardamento de chama.
- Temperatura de trabalho: -40°C +90°C.
- Tensão acima de 1000 volts.

Material: Cobre electrolítico, estañado electroliticamente.

- Alta conductividad.
- Aislamiento de PVC rígido con retardo de llama.
- Temperatura de trabajo: -40°C +90°C.
- Tensión superior a 1000 voltios.

Material: Electrolytic copper, electrolytically tinned.

- High conductivity.
- Insulation of rigid VINYL with flame retardancy.
- Working temperature: -40°C +90°C.
- Voltage above 1000 volts.
